- Trailer, Web Banners, mailing lists
- In Jan 2019: Description of suggested future modules (DM Forum activity) "FAIR within Research Disciplines"

Konstaterede eller forventede afvigelser i forhold til de planlagte leverancer

The intro module is very challenging and we are still in script phase.
Original delivery date were 15th November, but we are now looking at 15th January – for all three modules.
To make sure we are 100% aligned on quality we have added an extra review step which mean we have to postpone launch to Jan 2019.

Forbrugt bevilling

We had an un-budgeted extra expense from COBL on 41.700 KR. So we are applying for extra funds from DM Forum – this to be updated to the DM Forum SEK.
